

# Horticulture and the Environment

During the student's time in this area the aim is to develop a range of knowledge and skills. Students will have completed a Manual Handling course before commencing.

Skills will include:

- Learning to use a variety of garden tools and equipment.
- Learning about safe lifting, team work and Personal Protective Clothing.
- Learning about staying safe in a horticulture environment.
- Building on following an instruction and completing a task from start to finish.
- Sowing and planting vegetables in raised beds.
- Weeding and cleaning area by hand using garden hoe, rakes and brushes.
- Mixing and blending Compost.

**Students will work towards attaining the Horticulture JCSP Statement Number 31.**
